Aspiring Data Scientist with hands-on experience in machine learning, data analysis, and model deployment eager to apply skills to solve real-world problems.

PROJECTS

Laptop PRICE PREDICTION

Designed and implemented a laptop price prediction model using regression algorithms in Python, performed data cleaning and feature engineering to achieve ~87% accuracy, evaluated using R^2 score and MAE and built a user-friendly web interface with Flask and hosted the project on GitHub.

Diabetes Prediction using Logistic Regression

Developed a diabetes prediction model using Logistic Regression in Python; handled data preprocessing by replacing invalid zero values with feature means. Trained with a 75/25 split, evaluated using accuracy score and confusion matrix. Deployed via Flask for real-time predictions.

EDUCATION

Abes Engineering College, AKTU

2024 - 2026

MCA

CCSU

2021 - 2024

BCA

SKILLS

C, Python, SQL, HTML, CSS, JAVA, Basic DSA, Regression, Ensemble Methods, Clustering, Classification, Pandas, Scikit-learn, NumPy, EDA, Matplotlib, Power BI, Excel, Data Visualization

CERTIFICATIONS

- PWC DATA SCIENCE MASTER'S
- Build with AI (Delhi)
- Bharat intern certificate(machine learning)
